# 6" LED/F-Class GEN V

LED 6" Open Extreme Shallow Downlight, non-IC, 750-5000 Lumens

## Description

Extremely shallow, less than 3" projection into the plenum, 6 inch LED recessed, non-IC luminaire featuring superior thermal management. Light engine features Philips Fortimo Flex LED module and Advance Xitanium LED driver with outputs ranging from 750 to 5000 lumens and color temperatures from 2700 to 4000°K. A wide selection of driver, reflector finishes and emergency battery back-up options available.

## Specifications and Features

### Construction

Galvanized steel mounting frame with integral junction box featuring hinged access covers and spring retaining latches; (3) 3/4" knockouts allowing straight conduit runs. Listed for (8) #12 AWG (4 in, 4 out), 90° C conductors and feed through branch wiring. Driver, LED module and optional battery backup accessible from below ceiling. Reflectors are held in place by friction clips, securing reflector flange tightly to finished ceiling.

Vertically adjustable mounting brackets, accessible from below, accept a variety of mounting bars. Provided as standard with rigid formed, galvanized bar hangers which incorporating joist positioning tabs, integral nails, auxiliary nail holes and T-bar slots. Suitable for joist spacing from 12 to 24".

### Light Engine

LED module is Philips Fortimo Flex, producing up to 107 lumens per watt. Output ranges from 750 to 5000 lumens with (4) standard color temperatures. Color variations are less than 3-step MacAdam ellipses and have greater than 80 CRI at all color temperatures. Rated life in excess of 50,000 hours at 70% of initial lumen output ( $L_{70} > 50,000$  hours). Standard driver is Advance Xitanium featuring auto reset thermal protection and 0-10V dimming to 1% of light output with flicker free operation. Optional Triac (phase control) and Lutron Hi-Lume 2 and 3 wire dimming drivers available.

## Optics

LED module features soft white acrylic window, obscuring LED's, preventing pixilation and producing uniform brightness. Reflectors are a one-piece spinning from heavy gauge, high purity aluminum and are self-flanged. Reflectors are available in both Alzak® and painted finishes, producing a uniform distribution free of streaks, striations or hotspots while also provide superior cutoff and brightness control. Standard distribution is flood with the ability to tailor distribution pattern with BeamShaper™ optical lensing.

## Controls

Compatible with a wide range of controls systems depending on driver selected. Standard driver features SensorReady technology for simple 2 wire connection to motion and daylight harvesting sensors. An open source architecture allows for the use of a wide variety of sensors and the ability to control individual or grouped luminaires through wireless communications. Contact factory for option controls and sensors.

## Listings

Manufactured and Listed to UL 1598, ETL and CSA standards. Non-IC rated. Insulation to be kept 3" from luminaire. Suitable for Damp Locations; Wet Locations under covered ceiling. All photometric tests performed by an accredited NVLP facility and in accordance to IESNA LM-79-2008 testing procedures.

## Warranty

5-year warranty on LED module, driver, housing and reflectors.

Manufactured and Listed to UL 1598, ETL and CSA standards. Suitable for Damp Locations. Wet location under covered ceiling.

## Ordering Information

EXAMPLE: A6VOFLEDESU-1130K-ES6060-SGC

Series/Source	Voltage	Lumens	Kelvin	Reflector	Finish	Options	BeamShaper

### Reflector Finish Options

SGL - Specular Clear  
SGC - Soft Glow Clear  
ECL - Etched Clear  
WHT - White Painted

All trims supplied standard with white painted flange.

### Options

DL-2<sup>2</sup> - Lutron 2 wire Hi-Lume Dimming Driver.  
DL-3<sup>3</sup> - Lutron 3 wire Hi-Lume Dimming Driver.  
EMI-17 - Emergency battery back-up.  
Remote test button & indicator Light.  
EMI-17 - Emergency battery back-up.  
Integral test button & indicator Light.  
PF - Polished Flange  
TDM<sup>4</sup> - Triac Dimming Driver.

### Beam Shaper

1D - 10° BeamShaper Upper Lens  
2D - 20° BeamShaper Upper Lens  
3D - 30° BeamShaper Upper Lens  
4D - 40° BeamShaper Upper Lens  
5D - 50° BeamShaper Upper Lens  
6D - 60° BeamShaper Upper Lens  
7D - 70° BeamShaper Upper Lens  
8D - 80° BeamShaper Upper Lens

### Notes

- 1 - Must provide voltage when optional drivers are selected.
- 2 - DL-2 not available above 3000 lumens.
- 3 - DL-3 not available above 4000 lumens.
- 4 - TDM driver not available above 4000 lumens.

▲ Consultate Page OP-1 for additional housing and trim options.  
▲ Consultate Page LED-DD for decorative trim options.
